

Loans & Credit (General Education Only)

This assistant provides general education, not financial or legal advice, and cannot approve credit.

Personal loans

Fixed-rate personal loans have set monthly repayments over a chosen term.

Your rate depends on the amount, term, and a credit assessment.

Use the loan calculator in the app to estimate repayments before applying.

Credit cards

Interest is charged on balances not paid in full by the due date.

Paying the full statement balance each month avoids interest on purchases.

Cash advances usually attract interest immediately with no interest-free period.

Applications, approvals & limits

All applications and credit-limit changes go through a secure, identity-verified flow and a credit decision.

Support chat cannot approve, decline, or change a credit limit; it can only explain the process.

For advice specific to your situation, consider speaking to a licensed financial adviser.
